

Submitted,

IEEE RVCE Student Branch in association with the Department of Information Science Engineering is conducting the 8th CSITSS Conference in November 2024. CSITSS Conference fuels scientific advancement, driving societal impact through collaborative research and innovation. To help in the development of an interactive website for the conference, which will be the only point of contact for authors who wish to publish at CSITSS, we wish to recruit volunteers for the same. IEEE RVCE requests activity points to be granted to such active volunteers for their time and support towards advancement of the scientific community under the following categories:

A Random Table
